SUMMARY

Enthusiastic and highly motivated Front-End Web Developer with a solid foundation in HTML5, CSS3, JavaScript, and responsive design principles. Proficient in building clean, user-centric interfaces and developing interactive web applications using modern frameworks such as React.js. Experienced in version control with Git and familiar with Agile development practices. Demonstrates strong problem-solving skills, attention to detail, and a commitment to writing efficient, maintainable code. Eager to contribute to dynamic development teams and grow professionally in a fast-paced, technology-driven environment.

EXPERIENCE

Front-End Developer

2023 - July 2023

Octanet Pvt Ltd June

New Delhi, India

- Developed responsive and interactive web interfaces using HTML, CSS, and JavaScript in alignment with modern design principles and user experience standards.
- Successfully completed two projects:(1). **To-Do List Application** – Built a dynamic task management tool with functionality to add, delete, and manage tasks using JavaScript DOM manipulation. (2). **Landing Page** – Designed and developed a fully responsive landing page showcasing layout structure, visual hierarchy, and user engagement elements.
- Collaborated remotely with mentors and team members to meet project deadlines and implement feedback effectively. Gained hands-on experience in front-end development workflows, code versioning (Git), and debugging techniques.
- Strengthened understanding of responsive design, browser compatibility, and best practices in web accessibility.

PROJECTS

E-Commerce Web Application

Frontend Web Developer

Jan 2025 - Jun 2025

- Developed a responsive e-commerce website using HTML, CSS, JavaScript, React.js, and Bootstrap. Implemented features like product listing, shopping cart, and filtering. Focused on clean UI, user experience, and modular component-based design for efficient front-end functionality and scalability.

Technologies: React • HTML • CSS • Bootstrap • JavaScript
